Hang it all

Used instead of simple hooks, the brightly coloured wooden balls of the 'Hang it all' coat rack are aimed at encouraging children to literally hang up all their things. Thanks to the uniform distance between the balls, multiple coat racks can be mounted side by side for additional storage. 'Hang it all' is a cheerful alternative to boring coat hooks – and not just for children's rooms.

The original colour composition of 'Hang it all' was conceived by Ray Eames. To celebrate her 100th birthday in December 2012, Vitra together with the Eames Office developed three versions of the coat rack in the fresh tones red, green and white.

Materials

- **Frame:** coated steel wire.
