

This model stands out for the way it cleverly combines different materials to create a sophisticated and complete system that is capable of furnishing the entire bedroom. The bedhead – flush with the bed frame or in a wide version – is in ash stained light walnut or mocha with upper and lower profiles in solid wood, and has leather or fabric cushions, whose height can be adjusted with a leather band, that provide comfortable support for the back. The fabric cushions can also be fitted with theBreath® purifying insert, a patented technology that operates without energy sources that captures and disintegrates pollutants. The size of the solid wood bed frame varies according to the mattress; it can be supported by two simple feet or host two large drawers with upholstered leather fronts.

Acute features multiple customisation options (shelves, open compartment, electrical sockets, lighting) and can be combined with a bench or side table.
