

Extend - Design: Strand & Hvass

DESCRIPTION

- The table has a timeless expression with strong, simple lines that signal stability and elegance.
- The Extend table has built-in honey comb extension leaves and a unique fold-out system hidden inside.
- The hidden extending leaves are easily pulled out by pulling at the end of the table to accommodate four extra seats.
- The table is crafted from solid oak, while the extensions leaves feature a honeycomb interior construction that makes them at once very durable and lightweight
- **Download assembly instructions**

HISTORY

- Designed by Strand+Hvass in 2007 for Carl Hansen & Son.

THE DESIGNER

The design duo Strand + Hvass are part of a new breed of Danish designers whose work continues in a direct line from their celebrated predecessors. They focus on simplicity, functionality, superior quality, and the combination of uniqueness and industrial production to create the modern classics of tomorrow.

Founded in 1998 by industrial designer Christina Strand and architect Niels Hvass, the Strand + Hvass design firm is based in Copenhagen. The two initially joined forces to unlock the synergy between them and double the potential inherent in two minds working on the same solution. Their mutual design philosophy is user-centered, deeply rooted in Scandinavian culture, and based on research and an understanding of function. All this has resulted in simple and comprehensible furniture that showcases a deep

understanding of the potential of various materials.

With the Straight furniture range, Strand + Hvass infuse the modern Danish furniture tradition of simplicity with a bold new expression. In the SH700 Straight Table, they convincingly use a combination of metal and oak to create an illusion of lightness. The precision of the craftsmanship can be seen in the details of the structure.

Strand + Hvass began working for Carl Hansen & Søn (then via Tranekær Furniture) in 1999 and have since created a number of pieces for the company.

ENVIRONMENTAL INFORMATION

Carl Hansen & Søn and sustainability

People's fascination of the combination of good design and wood, as well as other natural materials, is something that transcends time and fashion. At Carl Hansen & Søn, we believe that this fascination helps to explain the great interest in our furniture, and we take very seriously concerns about the sustainability of the natural resources upon which we depend for our products. That is why we strive every day to improve our production methods, logistics and sales efforts in respect of scarce natural resources.

We buy wood only from sustainably managed forests. All sourced wood meets EUTR 2013 regulations, Danish Forest Legislation and current international certifications. Oak, beech and ash come primarily from Danish forests which are managed according to the principles described in Denmark's National Forest Programme; some of these wood types are also sourced from other similarly managed European forests, or, in the case of walnut and cherry, North American forests.

We use every possible bit of these fine hardwoods in our furniture production. Inevitably, however, there are some scraps, which are then used to produce other products or recycled in district heating plants.

TESTS AND CERTIFICATIONS

All tests and certificates are available on request.
